8. Expected learning outcomes of the program				
Knowledge				
the labor market with the necessary skills from human resources.	-	Providing graduates who are able to perform economic analysis and predict economic variables.	-	
		Disseminating knowledge in government institutions to achieve the aspirations of society.	-	
Skills				
ability of economics graduates to conduct feasibility studies and economic analysis.	-	The ability to solve economic problems that economic activity suffers from, such as: Demand and supply Inflation and recession.	-	
		Exchange of experiences and data with ministries with economic decision-making powers	-	
s should be knowledgeable and skilled in to accomplish the tasks assigned to them.	-	Providing economic advice to the public and private sectors.	-	
Values				
e to professional ethics and the ability to demonstrate high professional competence.	-	Establishing social and ethical responsibility.	-	
		Serving the community and meeting its requirements.	-	
must believe in the principles of integrity, and have the ability to apply the concepts of quality management.	-	Integrity and transparency.	-	
		Quality.	-	
9. Teaching and learning strategies				
ing: Encouraging students' active participation in learning processes, such as discussions, group activities,				

and problem solving, to enhance their deep understanding of mathematical concepts.	
orative learning: Encouraging students to work together in small groups to solve problems related to their studies and share ideas, which contributes to enhancing interaction and knowledge exchange among them.	.٢
ology: Leveraging technology to provide interactive learning tools such as computer software and online resources to enhance student understanding and motivation.	.٣
ed learning: presenting specific problems and motivating students to think critically and use management skills to solve them.	.٤
structional Strategies: Providing a variety of instructional strategies, such as interactive lectures, practical lessons, and hands-on exercises, to meet the diverse needs of students.	.٥
anagerial thinking: Encouraging students to develop managerial thinking skills such as analysis, planning and inference, by providing stimulating questions and applied problems.	.٦
mediate feedback: Provide mechanisms to provide immediate feedback to students on their performance and understanding of management concepts, whether through periodic assessments or direct interaction with the teacher.	.٧

10. Evaluation methods

room performance assessment: This includes assessing students' performance during lessons, lectures and labs, whether through written tests or continuous assessment of their participation and understanding of the material.	.١
n discussions and activities: Students' participation in class discussions, group activities, and individual projects can be assessed to assess their understanding and engagement with the material.	.٢
nd Assignments: Students may be given regular tests and assessment assignments to assess their problem-solving skills related to their subject area and their understanding of the concepts presented.	.٣
ating participation in research: The extent to which students participate in research activities and scientific projects can be assessed, and an evaluation can be provided of their presentation style and analysis of their results and conclusions.	.٤
al performance evaluation: Students can be evaluated in practical performance through practical visits and participation in applied activities.	.٥
ation of external participation: This includes evaluation of the extent of students' participation in external activities such as conferences, seminars, and sports competitions.	.٦
n of Personal and Professional Development: Students' personal, professional and academic development can be evaluated during their participation in the faculty mentoring program.	.٧

Professional development				
Orientation of new faculty members				
etermining the needs of the university and the department:	The needs of the university and the department are determined in terms of the required educational cadres. And preferred majors.	-١		
ntation Programs:	Customized orientation programs are designed for new, visiting, full-time and part-time members based on their needs and specialties.	-٢		
ion to the University Environment:	A comprehensive introduction to the university and the Department of Administration is provided, including an overview of the department, vision, mission, goals, and available services.	-٣		
upport resources:	New members are provided with the necessary resources and support, including training courses, workshops, and technical assistance.	-٤		
Orientation:	New members are oriented regarding the curricula, research areas and teaching methods used in the department.	-٥		
Administrative Orientation:	New members are oriented to administrative procedures, responsibilities, university policies and code of conduct.	-٦		
g Support:	Ongoing support is provided to new, visiting, full-time and part-time faculty members through advisory sessions, workshops and periodic evaluations.	-٧		
Professional development for faculty members				
g needs and setting goals:	Faculty needs are identified through surveys and performance evaluations, and then specific goals to be achieved within the program are identified.	.١		
nt Program Design:	Based on the specific needs and objectives, a comprehensive development program is designed that includes a set of activities, training courses, workshops, and educational resources.	.٢		
Implementation:	The development program is implemented in a regular and organized manner, including organizing workshops, conducting training courses, and providing appropriate educational resources.	.٣		

Effective teaching strategies: Faculty members learn to use and apply modern and effective teaching strategies, such as cooperative learning, active learning, and educational technology.

Evaluation of learning outcomes: The effectiveness of the development program is evaluated by evaluating the learning outcomes of faculty members, such as increased levels of knowledge, teaching skills, and interaction with students.

Continuous Development: Ongoing feedback and support is provided to faculty members to promote ongoing professional and academic development.

Participation in scientific research and publication: Faculty members are encouraged to participate in scientific research and publish the results in prestigious academic journals, which enhances their academic standing and contributes to the development of knowledge in their fields.

12. Acceptance Criteria

Central acceptance.

Accepting exceptions (martyrs' families, children of faculty, distinguished employees, top students in institutes, foreign students).

Private government education

Accepting evening studies.

13. The most important sources of information about the program

University, college and electronic department website.

Priorities for establishing the department.

Develop and update the curricula of the faculties of management and economics in Iraqi universities for the year 2017.

14. Program Development Plan

Developing curricula for each subject by the instructor.

Developing a branch of the third stage (economic teachers) and opening postgraduate studies, a higher diploma equivalent to a master's and doctorate.

Developing teaching and administrative staff through courses, seminars and workshops in areas of specialization.

Encouraging scientific research efforts by encouraging faculty members to publish, especially in international journals.

Developing training programs to develop students' capabilities in technical and information technology fields.

Organizing field visits and scientific trips for students to government institutions.

homework and formulate at least three questions.			methods of market balance		
Follow up on homework and formulate at least three questions.	Theory and practical examples	Chapter Four: Consumer Equilibrium - Utility Theory	Learn how to balance the consumer	6	10-11-12
Follow up on homework and formulate at least three questions.	Theory and practical examples	Chapter Five: Consumer Equilibrium - Indifference Curve Theory	Understanding Indifference Curves	6	13-14-15

11. Course Evaluation

The final grade for the evaluation is 100 points, and the minimum for success is 50 points, and the grade is distributedEvaluation on the end of the course is 30 points and the end of the course exam is 70 points.As follows:

- First month exam 10 marks •
- Second month exam 10 marks •
- Daily preparation 5 degrees •
- Posts 5 points •
- End of course exam 70 points

12. Learning and teaching resources

Microeconomics textbook	Required textbooks (methodology if any)
Books available in the college library	Main References (Sources)
References available online	Recommended supporting books and

	references (scientific journals, reports...)
Educational YouTube available for free online	Electronic references, websites
