

Academic Program Description Form

For the academic year 2023-2024

University name: UniversityTikrit

College/Institute: CollegeManagement and Economics

Scientific Department: DepartmentEconomy

Name of academic or professional program:Department of Economics

Final Certificate Name: BachelorSciences in Economics

Academic system:Course system

Description preparation date: 1/28/2024

Date of filling the file:1/28/2024

اسم رئيس القسم: ۱.م.د. إبراهيم اسم المعاون العلمي: ۱.م.د. أشرف هاشـــم عبدالله جاسم فارس العبدون التاريخ:

شعبة ضمان الجودة والأداء الجامعي السم مدير شعبة ضمان الجودة والأداء الجامعي: أسامة موسى فرحان

1. Program Vision

❖ Effective contribution to building an advanced economy based on sound planning in accordance with appropriate economic policies. Reality and following an advanced scientific approach in preparing economic curricula

2. Program message

The objective need of the public and private sectors requires the formulation of economic plans and programmes at the micro and macro levels and the development of policies to achieve a set of economic and social objectives according to priorities embodied by the necessities and available capabilities. Here, it is necessary to prepare specialised cadres to conduct economic research and studies in a way that contributes to deepening economic awareness and maximising the economic and social benefits of available resources.

3. Program objectives

- 1. Graduating specialized cadres in the field of planning and building economic policies, capable of integrating into the labor market and economic life.
- 2. Developing students' skills to enable them to Integration into the labor market.
- 3. Motivating and supporting the faculty in the department to conduct studies and provide consultations. Economic For public and private entities in Iraq.
- **4.** Effective contribution to preparing training and continuing education programs to develop expertise and skills in public and private sector institutions.

4. Program accreditation

5. DoThe programIs the program accredited? And from which authority? both

5. Other external influences

6. Is there a sponsor? ForprogramYes, the Ministry of Higher Education and Scientific Research, the Presidency of Tikrit University, and the Deanship of the College of Administration and Economics.

6. Program Structure

/ and	transparency, and have the ability to	- Quality.
e co	ncepts of quality management.	
g ar	d learning strategies	
ve le	arning: Encouraging students' active p	articipation in learning processes, such as discussions,
p ac	ivities, and problem solving, to enhan	ce their deep understanding of mathematical concepts.
pera	ive learning: Encouraging students to	work together in small groups to solve
lem	related to their studies And sharing id	eas, which contributes to enhancing interaction and
vled	e exchange between them.	
of T	chnology: Leveraging technology to	provide interactive learning tools such as computer
vare	and online resources to enhance stude	nt understanding and motivation.
lem	based learning: presenting specific pro	oblems and motivating students to think critically and
skills	AdministrativeTo solve it.	
iple	Instructional Strategies: Providing a v	ariety of instructional strategies, such as interactive
	practical lessons, and hands-on exerci-	ses, to meet the diverse needs of students.
res,	thinking Administrative Encourage stu	dents to develop thinking skills. Administrative Such as
	inniking Administrative Encourage stat	
note		stimulating questions and applied problems.
note ysis,	planning and inference, by providing	stimulating questions and applied problems. sms to provide immediate feedback to students on

per ormance and understanding of concepts. Administrative, whether through periodic ssments or direct interaction with the teacher.

ntion methods

sroon performance assessment: This includes assessing students' performance during lessons, ares and workshops, whether through written tests or continuous assessment of their participation understanding of the material.

icipation in discussions and activities: Students' participation in class discussions, group vities, and individual projects can be assessed to assess their understanding and engagement with material.

s and assignments: Students may be given regular tests and assessment assignments to assess problem-solving skills.related to their field of expertiseAnd their understanding of the concepts enter.

luating participation in research: The extent to which students participate in research activities scientific projects can be assessed, and an evaluation can be provided of their presentation style analysis of their results and conclusions.

tical Performance Evaluation: Students can be evaluated in practical performance ugh: VisitsProcess and participation in applied activities.

luation of external participation: This includes evaluation of the extent of students' participation atternal activities such as conferences, seminars, and sports competitions.

luation of Personal and Professional Development: Students' personal, professional and academic elopment can be evaluated during their participation in the faculty mentoring program.

11. Course Evaluation

The final grade for the evaluation is 100 points, and the minimum for success is 50 points, and the grade is distributedEvaluation on the end of the course is 30 points and the end of the course exam is 70 points. As follows:

- First month exam 10 marks
- Second month exam 10 marks
- Daily preparation 5 degrees
- Posts 5 points

End of course exam 70 points
