1. Program Vision

Effective contribution to building an advanced economy based on sound planning according to economic policies that suit reality and following an advanced scientific approach in preparing economic curricula. ❖

2. Program message

The objective need of the public and private sectors requires the formulation of economic plans and programmes at the micro and macro levels and the development of policies to achieve a set of economic and social objectives according to priorities embodied by the necessities and available capabilities. Here, it is necessary to prepare specialised cadres to conduct economic research and studies in a way that contributes to deepening economic awareness and maximising the economic and social benefits of available resources. ❖

3. Program objectives

Graduating specialized cadres in the field of planning and building economic policies, capable of integrating into the labor market and economic life. .1

Developing students' skills to enable them to integrate into the labor market. .2

Motivating and supporting the faculty in the department to conduct studies and provide economic consultations to public and private entities in Iraq. .3

Effective contribution to preparing training and continuing education programs to develop expertise and skills in public and private sector institutions. .4

4. Program accreditation

Is the program accredited? And from which authority?both .5

5. Other external influences

Is there a sponsor for the program? Yes, the Ministry of Higher Education and Scientific Research, the Presidency of Tikrit University, and the Deanship of the College of Administration and Economics .7

6. Program Structure

comments	percentage	Study unit	Number of courses	Program Structure
	6.9%	10	5	Institutional Requirements
	7.5%	11	4	College Requirements
	85.6%	125	55	Department Requirements
	Completed			Summer training
				Other

*Notes may include whether the course is basic or optional.

e to professional ethics and the ability to demonstrate high professional competence.	-	Establishing social and ethical responsibility.	-
		Serving the community and meeting its requirements.	-
must believe in the principles of integrity, transparency, and have the ability to apply the concepts of quality management.	-	Integrity and transparency.	-
		Quality.	-

9. Teaching and learning strategies

ing: Encouraging students' active participation in learning processes, such as discussions, group activities, and problem solving, to enhance their deep understanding of mathematical concepts.	.1
orative learning: Encouraging students to work together in small groups to solve problems related to their studies and share ideas, which contributes to enhancing interaction and knowledge exchange among them.	.2
nology: Leveraging technology to provide interactive learning tools such as computer software and online	.3

resources to enhance student understanding and motivation.

ed learning: presenting specific problems and motivating students to think critically and use management .٤
skills to solve them.

structional Strategies: Providing a variety of instructional strategies, such as interactive lectures, practical .٥
lessons, and hands-on exercises, to meet the diverse needs of students.

anagerial thinking: Encouraging students to develop managerial thinking skills such as analysis, planning .٦
and inference, by providing stimulating questions and applied problems.

mediate feedback: Provide mechanisms to provide immediate feedback to students on their performance .٧
understanding of management concepts, whether through periodic assessments or direct interaction with the
teacher.

10. Evaluation methods

room performance assessment: This includes assessing students' performance during lessons, lectures and .٨
ops, whether through written tests or continuous assessment of their participation and understanding of the
material.

n in discussions and activities: Students' participation in class discussions, group activities, and individual .٩
projects can be assessed to assess their understanding and engagement with the material.

nd Assignments: Students may be given regular tests and assessment assignments to assess their problem- .٣
solving skills related to their subject area and their understanding of the concepts presented.

ating participation in research: The extent to which students participate in research activities and scientific .٤
be assessed, and an evaluation can be provided of their presentation style and analysis of their results and
conclusions.

al performance evaluation: Students can be evaluated in practical performance through practical visits and .٥
participation in applied activities.

ation of external participation: This includes evaluation of the extent of students' participation in external .٦
activities such as conferences, seminars, and sports competitions.

n of Personal and Professional Development: Students' personal, professional and academic development .٧
can be evaluated during their participation in the faculty mentoring program.

Professional development				
Orientation of new faculty members				
mining	the needs of the university and the department:	The needs of the university and the department are determined in terms of the required educational cadres. And preferred majors.		-١
ntation	Programs:	Customized orientation programs are designed for new, visiting, full-time and part-time members based on their needs and specialties.		-٢
on to	the University Environment:	A comprehensive introduction to the university and the Department of Administration is provided, including an overview of the department, vision, mission, goals, and available services.		-٣
ppor	resources:	New members are provided with the necessary resources and support, including training courses, workshops, and technical assistance.		-٤
Orientation:		New members are oriented regarding the curricula, research areas and teaching methods used in the department.		-٥
Administrative	Orientation:	New members are oriented to administrative procedures, responsibilities, university policies and code of conduct.		-٦
g Support:		Ongoing support is provided to new, visiting, full-time and part-time faculty members through advisory sessions, workshops and periodic evaluations.		-٧
Professional development for faculty members				
g needs	and setting goals:	Faculty needs are identified through surveys and performance evaluations, and then specific goals to be achieved within the program are identified.		.١
nt Program	Design:	Based on the specific needs and objectives, a comprehensive development program is designed that includes a set of activities, training courses, workshops, and educational resources.		.٢
Implementation:		The development program is implemented in a regular and organized manner, including organizing workshops, conducting training courses, and providing appropriate educational resources.		.٣
Effective	teaching strategies:	Faculty members learn to use and apply modern and effective teaching strategies, such as cooperative learning, active learning, and educational technology.		.٤
uation	of learning outcomes:	The effectiveness of the development program is evaluated by evaluating the outcomes of faculty members, such as increased levels of knowledge, teaching skills, and interaction with students.		.٥

Continuous Development: Ongoing feedback and support is provided to faculty members to promote ongoing professional and academic development. -٦

Participation in scientific research and publication: Faculty members are encouraged to participate in scientific research and publish the results in prestigious academic journals, which enhances their academic standing and contributes to the development of knowledge in their fields. -٧

12. Acceptance Criteria

Central acceptance. -١

Exceptions (martyrs' families, children of faculty, distinguished employees, top students in institutes, foreign students). -٢

Private government education -٣

Accepting evening studies. -٤

13. The most important sources of information about the program

University, college and electronic department website. -١

Priorities for establishing the department. -٢

Develop and update the curricula of the faculties of management and economics in Iraqi universities for the year 2017. -٣

14. Program Development Plan

Developing curricula for each subject by the instructor. -١

Develop a branch of the third stage (economic teachers) and opening postgraduate studies, a higher diploma equivalent to a master's and doctorate. -٢

Developing teaching and administrative staff through courses, seminars and workshops in areas of specialization. -٣

Encouraging scientific research efforts by encouraging faculty members to publish, especially in international journals. -٤

Developing training programs to develop students' capabilities in technical and information technology fields. -٥

Organizing field visits and scientific trips for students to government institutions. -٦

Oral questions	Lecture/Discussions	Definition of industrial economics and its relationship to other sciences	theoretical knowledge	2hour	Fifth
-	-	Monthly exam	-	2hour	Sixth
Oral questions	Lecture/Discussions	Industry and Economic System	theoretical knowledge	2hour	Seventh
Oral questions	Lecture/Discussions	Introduction to the Study of Industry and Manufacturing	theoretical knowledge	2hour	The eighth

Questions and share	Lecture/Discussions	The importance of manufacturing	theoretical knowledge	2hour	Ninth
Oral questions	Lecture/Discussions	Industrial structures	theoretical knowledge	2hour	tenth
Oral questions	Lecture/Discussions	Scientific foundations for localizing industrial projects	theoretical knowledge	2hour	eleventh
Questions and share	Lecture/Discussions	(Factors affecting and effective in industrial localization)	theoretical knowledge	2hour	twelfth
Oral questions	Lecture/Discussions	(The most important methods or ways to localize industrial projects)	theoretical knowledge	2hour	thirteenth
-	-	Monthly exam	-	2hour	fourteenth
Questions and share	Lecture with oral questions	Comprehensive review	theoretical knowledge	2hour	fifteenth

11. Course Evaluation

The final grade for the evaluation is 100 points, and the minimum for success is 50 points, and the grade is distributed. Evaluation on the end of the course is 30 points and the end of the course exam is 70 points. As follows:

- First month exam 10 marks •
- Second month exam 10 marks •
- Daily preparation 5 degrees •
- Posts 5 points •
- End of course exam 70 points

12. Learning and teaching resources

EconomyIndustrial lecture group	Required textbooks (methodology if any)
	Main References (Sources)
	Recommended supporting books and references (scientific journals, reports...)
Reviewing scientific websites through the web	Electronic references, websites
