1. Program Vision

It is represented by forming a deep and comprehensive understanding of the academic and research fields related to the specializations of financial and banking sciences, in addition to familiarity with the latest theoretical and practical innovations in this sector. It also seeks to achieve student empowerment by providing them with the necessary practical skills in supporting fields such as management, accounting, and economics, which qualifies them to participate effectively in banks, financial markets, and other financial institutions. In addition, the vision includes enhancing the scientific research capabilities of faculty members

2. Program message

It is summarized in developing distinguished administrative and financial cadres that combine strategic and professional competence and social responsibility, with a focus on constructive interaction with local and international institutions. The department aims to prepare students to be capable leaders, who possess knowledge, skills and good morals, in addition to the ability to think creatively that enables them to compete strongly in the market, by adhering to high standards of quality in all activities and programs offered by the college.

3. Program objectives

The department seeks to achieve a set of strategic objectives that include:: 1. Ensuring quality and academic excellence in the fields of finance and banking. Graduating students equipped with comprehensive scientific and applied knowledge and the skills necessary for the specialization... 3.Adapting and responding to environmental changes and new developments in the financial and banking sector to capitalize on emerging opportunities. 4.Enhancing scientific research and developing research skills among faculty members. 5. Building collaborative relationships with the local community, public and private sectors, and providing consulting and training programs. 6. Establishing cooperation and partnerships with similar departments in the field of financial and banking sciences at universities inside and outside the country with the aim of exchanging experiences and information. This enhances the capabilities of faculty members in the department by motivating them to participate in conferences and practical workshops, and to implement specialized research and studies in the field of financial and banking sciences.. 7. Cooperating with various state organizations by providing consultations to address the administrative challenges they face.

8.Striving to integrate students into the government sector through their participation in field research and studies, with the aim of preparing cadres with a high degree of scientific competence and intellectual skills.

4. Program accreditation

DoThe programIs the program accredited? And from which authority? both .1

5. Other external influences

Is there a sponsor? ForprogramYes, Ministry of Higher Education and Scientific .2

principles of integrity and transparency,		Quality
and have the ability to apply the		
concepts of quality management at		
work.		
		9. Teaching and learning strategies

9. Teaching and learning strategies

- Active learning: Encouraging students' active participation in learning processes, .1 such as discussions, group activities, and problem solving, to enhance their deep understanding of mathematical concepts.
- Cooperative learning: Encouraging students to work together in small groups to .2 solve problems.related to their studiesAnd sharing ideas, which contributes to enhancing interaction and knowledge exchange between them.
- Use of Technology: Leveraging technology to provide interactive learning tools .3 such as computer software and online resources to enhance student

understanding and motivation.

- Learning based solution Problems: Present specific problems and encourage .4 students to think critically and use skills. Finance To solve it.
- Multiple Instructional Strategies: Providing a variety of instructional strategies, .5 such as interactive lectures, practical lessons, and hands-on exercises, to meet the diverse needs of students.
 - Promote thinkingAdministrativeEncourage students to develop thinking .6 skills.AdministrativeSuch as analysis, planning and inference, by providing stimulating questions and applied problems.
 - Provide immediate feedback: Provide mechanisms to provide immediate .7 feedback to students on their performance and understanding of concepts.Administrative, whether through periodic assessments or direct interaction with the teacher.

10. Evaluation methods

- Classroom performance assessment: This includes assessing students'.1 performance during lessons, lectures and workshops, whether through written tests or continuous assessment of their participation and understanding of the material.
- Participation in discussions and activities: Students' participation in class .2 discussions, group activities, and individual projects can be assessed to assess their understanding and engagement with the material.
 - Tests and assignments: Students may be given regular tests and assessment .3 assignments to assess their problem-solving skills.related to their field of expertiseAnd their understanding of the concepts presented.
- Evaluating participation in research: The extent to which students participate in .4 research activities and scientific projects can be assessed, and an evaluation can be provided of their presentation style and analysis of their results and conclusions.
 - Practical Performance Evaluation: Students can be evaluated in practical .5 performance through: VisitsProcess and participation in applied activities.
 - Evaluation of external participation: This includes evaluation of the extent of .6

students' participation in external activities such as conferences, seminars, and sports competitions.

Evaluation of Personal and Professional Development: Students' personal, .7 professional and academic development can be evaluated during their participation in the faculty mentoring program.

Professional development

Orientation of new faculty members

- Determining the needs of the university and the department: The needs of the -1 university and the department are determined in terms of the required educational cadres and preferred specializations.
 - Orientation Programs: Customized orientation programs are designed for new, -2 visiting, full-time and part-time members based on their needs and specialties.
 - Introduction to the University Environment: A comprehensive introduction is -3 provided about the university and the department.General Administration, includingAbout the DepartmentAnd the visionAnd the messageThe objectives and services available.
 - Providing support resources: New members are provided with the necessary -4 resources and support, including training courses, workshops, and technical assistance.
 - Academic Orientation: New members are oriented regarding the curricula, -5 research areas and teaching methods used in the department.
 - Administrative Orientation: New members are oriented to administrative -6 procedures, responsibilities, university policies and code of conduct.
 - Ongoing Support: Ongoing support is provided to new, visiting, full-time and -7 part-time faculty members through advisory sessions, workshops and periodic

evaluations.

Professional development for faculty members

- Identifying needs and setting goals: Faculty needs are identified through surveys .1 and performance evaluations, and then specific goals to be achieved within the program are identified.
- Development Program Design: Based on the specific needs and objectives, a .2 comprehensive development program is designed that includes a set of activities, training courses, workshops, and educational resources.
- Program Implementation: The development program is implemented in a regular .3 and organized manner, including organizing workshops, conducting training courses, and providing appropriate educational resources.
 - Use effective teaching strategies: Faculty members learn to use and apply .4 modern and effective teaching strategies, such as cooperative learning, active learning, and educational technology.
- Evaluation of learning outcomes: The effectiveness of the development program .5 is evaluated by evaluating the learning outcomes of faculty members, such as increased levels of knowledge, teaching skills, and interaction with students.
- Continuous Development: Ongoing feedback and support is provided to faculty .6 members to promote ongoing professional and academic development.
- Participation in scientific research and publishing:Urges andFaculty members are .7 encouraged to engage in scientific research and publish results in prestigious academic journals, which enhances their academic standing and contributes to the development of knowledge in their fields.

12. Acceptance Criteria

- Central acceptance. -1
- Accepting exceptions (martyrs' families, children of faculty, distinguished -2 employees, top students in institutes, foreign students).
 - Private government education -3
 - Accepting evening studies. -4

13. The most important sources of information about the program

- University, college and electronic department website. -1
 - Priorities for establishing the department. -2
- Project to develop and update the curricula of the faculties of management and -3
 - economics in Iraqi universities for the year 2017.

14. Program Development Plan

- Curriculum development. -1
- Open postgraduate studies (higher diploma equivalent to a master's degree). -2
- Developing teaching and administrative staff through courses, seminars and workshops -3 in areas of specialization.
 - Supporting scientific research efforts by encouraging faculty members to publish, -4 especially in international journals.
 - Conducting training programs to develop students' capabilities in technical and -5 information technology fields.
 - **Organizing field visits and scientific trips for students to government institutions.** -6

Course Description Form

1. Course name

Intermediate Accounting 1

2. Course code

ACB102

3. Semester/Year

First / Second

4. Date this description was prepared

9/17/2023

5. Available forms of attendance

My presence

6. Number of study hours (total) / Number of units (total)

45 hours / 3 units

7. Name of the course supervisor (if more than one name is mentioned)

Prof. Dr. Saddam Mohamed Mahmoud and M.M. Kamel Mamdouh Kamel

8. Course objectives

A.Focusing on students and building them on a strong foundation of scientific knowledge, especially in the field of intermediate accounting, and constantly striving to support them in various fields. Dr.Introducing modern methods into the education system that increase students' ability to be creative and innovative.	A. Preparing an educated generation armed with science and adopting it as a sound basis for bringing about radical changes, placing scientific knowledge and the scientific method of thinking and analysis in the service of the country's goals, enabling it to pursue its higher education and adapt to the development of technology in order to keep pace with the expansion of human needs. for.Preparing administrative staffYAndYIt is responsible for studying the country's needs for development and progress and is capable ofAndTo meet the needs of the labor market in state institutions.			
	9. Teaching and learning strategies			
A.Adherence to professional ethics and the ability to demonstrate high professional competence. Dr.To be knowledgeable and skilled in information technology.	A.Graduates of the Department of Finance and Banking Sciences have the ability to think, solve problems, and manage resources and time. for.The student should be able to speak in a fluent manner.			
10. Course Structure				

Evaluation method	Learning method	Name of the unit or topic	Required learning outcomes	Watches	The week
Exam	theoretical	Conceptual Framework of Accounting - Definition of Accounting - Role of Accounting Information in Decision Making	Conceptual Framework of Accounting	3	the first
Exam	theoretical	Final accounts and financial statements in the commercial establishmentFinal accounts in the commercial establishment		3	the second
