1. Program Vision

It is represented by forming a deep and comprehensive understanding of the academic and research fields related to the specializations of financial and banking sciences, in addition to familiarity with the latest theoretical and practical innovations in this sector. It also seeks to achieve student empowerment by providing them with the necessary practical skills in supporting fields such as management, accounting, and economics, which qualifies them to participate effectively in banks, financial markets, and other financial institutions. In addition, the vision includes enhancing the scientific research capabilities of faculty members

2. Program message

It is summarized in developing distinguished administrative and financial cadres that combine strategic and professional competence and social responsibility, with a focus on constructive interaction with local and international institutions. The department aims to prepare students to be capable leaders, who possess knowledge, skills and good morals, in addition to the ability to think creatively that enables them to compete strongly in the market, by adhering to high standards of quality in all activities and programs offered by the college.

3. Program objectives

The department seeks to achieve a set of strategic objectives that include::
1.Ensuring quality and academic excellence in the fields of finance and banking.
2. Graduating students equipped with comprehensive scientific and applied knowledge and the skills necessary for the specialization.

3.Adapting and responding to environmental changes and new developments in the financial and banking sector to capitalize on emerging opportunities.

4.Enhancing scientific research and developing research skills among faculty members.
 5.Building collaborative relationships with the local community, public and private sectors, and providing consulting and training programs.

6. Establishing cooperation and partnerships with similar departments in the field of financial and banking sciences at universities inside and outside the country with the aim of exchanging experiences and information. This enhances the capabilities of faculty members in the department by motivating them to participate in conferences and practical workshops, and to implement specialized research and studies in the field of financial and banking sciences...

7.Cooperating with various state organizations by providing consultations to address the administrative challenges they face.

8.Striving to integrate students into the government sector through their participation in field research and studies, with the aim of preparing cadres with a high degree of scientific competence and intellectual skills.

4. Program accreditation

DoThe programIs the program accredited? And from which authority? both .1

5. Other external influences

Is there a sponsor? ForprogramYes, Ministry of Higher Education and Scientific .2

8. Expected learning outcomes of the program

Knowledge

The ability of the department's graduates to develop their cognitive and financial skills and achieve leadership in leading financial

Providing leading cadres in financial institutions covering both the public and private sectors.

Disseminating knowledge in

institutions.	government institutions to achieve the
motitutions.	aspirations of society.
	Skills
Graduates of the Department of -	Developing and supporting the -
Finance and Banking Sciences have the	spirit of creativity, innovation and
ability to think and solve financial	leadership.
problems.	Creating an open environment for -
	cultural and intellectual exchange.
Our outputs should be knowledgeable -	Communicate and interact -
and skilled in how to accomplish the	constructively with stakeholders.
tasks assigned to them.	
	Values
Adherence to professional ethics and -	Establishing social and ethical -
the ability to demonstrate high	responsibility.
professional competence.	Serving the community and meeting its -
	requirements.
The student must believe in the -	Integrity and transparency
principles of integrity and transparency,	Quality
and have the ability to apply the	
concepts of quality management at	
work.	
	9. Teaching and learning strategies
Active learning: Encouraging students' activ	ve participation in learning processes, .1
such as discussions, group activities, and p	roblem solving, to enhance their deep
und	derstanding of mathematical concepts.
Cooperative learning: Encouraging student	
solve problems.related to their studiesA	
-	d knowledge exchange between them.
Use of Technology: Leveraging technology	y to provide interactive learning tools .3
3. 3 3	d online resources to enhance student
1	

understanding and motivation.

- Learning basedsolutionProblems: Present specific problems and encourage .4 students to think critically and use skills. FinanceTo solve it.
- Multiple Instructional Strategies: Providing a variety of instructional strategies, .5 such as interactive lectures, practical lessons, and hands-on exercises, to meet the diverse needs of students.
 - Promote thinking Administrative Encourage students to develop thinking .6 skills. Administrative Such as analysis, planning and inference, by providing stimulating questions and applied problems.
 - Provide immediate feedback: Provide mechanisms to provide immediate .7 feedback to students on their performance and understanding of concepts. Administrative, whether through periodic assessments or direct interaction with the teacher.

10. Evaluation methods

- Classroom performance assessment: This includes assessing students'. 1 performance during lessons, lectures and workshops, whether through written tests or continuous assessment of their participation and understanding of the material.
- Participation in discussions and activities: Students' participation in class .2 discussions, group activities, and individual projects can be assessed to assess their understanding and engagement with the material.
 - Tests and assignments: Students may be given regular tests and assessment .3 assignments to assess their problem-solving skills.related to their field of expertiseAnd their understanding of the concepts presented.
- Evaluating participation in research: The extent to which students participate in .4 research activities and scientific projects can be assessed, and an evaluation can be provided of their presentation style and analysis of their results and conclusions.
 - Practical Performance Evaluation: Students can be evaluated in practical .5 performance through: VisitsProcess and participation in applied activities.
 - Evaluation of external participation: This includes evaluation of the extent of .6

students' participation in external activities such as conferences, seminars, and sports competitions.

Evaluation of Personal and Professional Development: Students' personal, .7 professional and academic development can be evaluated during their participation in the faculty mentoring program.

Professional development

Orientation of new faculty members

- Determining the needs of the university and the department: The needs of the -1 university and the department are determined in terms of the required educational cadres and preferred specializations.
 - Orientation Programs: Customized orientation programs are designed for new, -2 visiting, full-time and part-time members based on their needs and specialties.
 - Introduction to the University Environment: A comprehensive introduction is -3 provided about the university and the department. General Administration, including About the Department And the vision And the message The objectives and services available.
 - Providing support resources: New members are provided with the necessary -4 resources and support, including training courses, workshops, and technical assistance.
 - Academic Orientation: New members are oriented regarding the curricula, -5 research areas and teaching methods used in the department.
 - Administrative Orientation: New members are oriented to administrative -6 procedures, responsibilities, university policies and code of conduct.
 - Ongoing Support: Ongoing support is provided to new, visiting, full-time and -7 part-time faculty members through advisory sessions, workshops and periodic

Professional development for faculty members

- Identifying needs and setting goals: Faculty needs are identified through surveys .1 and performance evaluations, and then specific goals to be achieved within the program are identified.
- Development Program Design: Based on the specific needs and objectives, a .2 comprehensive development program is designed that includes a set of activities, training courses, workshops, and educational resources.
- Program Implementation: The development program is implemented in a regular .3 and organized manner, including organizing workshops, conducting training courses, and providing appropriate educational resources.
 - Use effective teaching strategies: Faculty members learn to use and apply .4 modern and effective teaching strategies, such as cooperative learning, active learning, and educational technology.
- Evaluation of learning outcomes: The effectiveness of the development program .5 is evaluated by evaluating the learning outcomes of faculty members, such as increased levels of knowledge, teaching skills, and interaction with students.
- Continuous Development: Ongoing feedback and support is provided to faculty .6 members to promote ongoing professional and academic development.
- Participation in scientific research and publishing: Urges and Faculty members are .7 encouraged to engage in scientific research and publish results in prestigious academic journals, which enhances their academic standing and contributes to the development of knowledge in their fields.

12. Acceptance Criteria

- Central acceptance. -1
- Accepting exceptions (martyrs' families, children of faculty, distinguished -2 employees, top students in institutes, foreign students).
 - Private government education -3
 - Accepting evening studies. -4

13. The most important sources of information about the program

- University, college and electronic department website. -1
 - Priorities for establishing the department. -2
- Project to develop and update the curricula of the faculties of management and -3 economics in Iraqi universities for the year 2017.

14. Program Development Plan

- Curriculum development. -1
- Open postgraduate studies (higher diploma equivalent to a master's degree). -2
- Developing teaching and administrative staff through courses, seminars and workshops -3 in areas of specialization.
 - Supporting scientific research efforts by encouraging faculty members to publish, -4 especially in international journals.
 - Conducting training programs to develop students' capabilities in technical and -5 information technology fields.
 - Organizing field visits and scientific trips for students to government institutions. -6
