1. Program Vision

It is represented by forming a deep and comprehensive understanding of the academic and research fields related to the specializations of financial and banking sciences, in addition to familiarity with the latest theoretical and practical innovations in this sector. It also seeks to achieve student empowerment by providing them with the necessary practical skills in supporting fields such as management, accounting, and economics, which qualifies them to participate effectively in banks, financial markets, and other financial institutions. In addition, the vision includes enhancing the scientific research capabilities of faculty members

2. Program message

It is summarized in developing distinguished administrative and financial cadres that combine strategic and professional competence and social responsibility, with a focus on constructive interaction with local and international institutions. The department aims to prepare students to be capable leaders, who possess knowledge, skills and good morals, in addition to the ability to think creatively that enables them to compete strongly in the market, by adhering to high standards of quality in all activities and programs offered by the college.

3. Program objectives

The department seeks to achieve a set of strategic objectives that include::

- 1.Ensuring quality and academic excellence in the fields of finance and banking.
2. Graduating students equipped with comprehensive scientific and applied knowledge and the skills necessary for the specialization..
- 3.Adapting and responding to environmental changes and new developments in the financial and banking sector to capitalize on emerging opportunities.
- 4.Enhancing scientific research and developing research skills among faculty members.
- 5.Building collaborative relationships with the local community, public and private sectors, and providing consulting and training programs.
6. Establishing cooperation and partnerships with similar departments in the field of financial and banking sciences at universities inside and outside the country with the aim of exchanging experiences and information. This enhances the capabilities of faculty members in the department by motivating them to participate in conferences and practical workshops, and to implement specialized research and studies in the field of financial and banking sciences..
- 7.Cooperating with various state organizations by providing consultations to address the administrative challenges they face.
- 8.Striving to integrate students into the government sector through their participation in field research and studies, with the aim of preparing cadres with a high degree of scientific competence and intellectual skills.

4. Program accreditation

DoThe programIs the program accredited? And from which authority? both .1

5. Other external influences

Is there a sponsor? ForprogramYes, Ministry of Higher Education and Scientific Research .2
