---------------	---------------

Quality.

The student must believe in the principles of integrity and transparency, and have the ability to apply the concepts of quality management at work.

9. Teaching and learning strategies

- Active learning: Encouraging students' active participation in learning processes, . such as discussions, group activities, and problem solving, to enhance their deep understanding of mathematical concepts.
 - Cooperative learning: Encouraging students to work together in small groups to .^v solve problems.related to their studiesAnd sharing ideas, which contributes to enhancing interaction and knowledge exchange between them.
- Use of Technology: Leveraging technology to provide interactive learning tools ." such as computer software and online resources to enhance student understanding and motivation.
- Problem-based learning: presenting specific problems and motivating students to .٤ think critically and use skillsAdministrativeTo solve it.
- Multiple Instructional Strategies: Providing a variety of instructional strategies, .• such as interactive lectures, practical lessons, and hands-on exercises, to meet the diverse needs of students.
 - Promote thinkingAdministrativeEncourage students to develop thinking .[\] skills.AdministrativeSuch as analysis, planning and inference, by providing stimulating questions and applied problems.
 - Provide immediate feedback: Provide mechanisms to provide immediate .^v feedback to students on their performance and understanding of concepts.Administrative, whether through periodic assessments or direct interaction with the teacher.

10. Evaluation methods

Classroom performance assessment: This includes assessing students'. performance during lessons, lectures and workshops, whether through written tests or continuous assessment of their participation and understanding of the

material.

- Participation in discussions and activities: Students' participation in class .^v discussions, group activities, and individual projects can be assessed to assess their understanding and engagement with the material.
 - Tests and assignments: Students may be given regular tests and assessment .۳ assignments to assess their problem-solving skills.related to their field of expertiseAnd their understanding of the concepts presented.
- Evaluating participation in research: The extent to which students participate in .[£] research activities and scientific projects can be assessed, and an evaluation can be provided of their presentation style and analysis of their results and conclusions.
 - Practical Performance Evaluation: Students can be evaluated in practical .• performance through: VisitsProcess and participation in applied activities.
 - Evaluation of external participation: This includes evaluation of the extent of .³ students' participation in external activities such as conferences, seminars, and sports competitions.
 - Evaluation of Personal and Professional Development: Students' personal, .^v professional and academic development can be evaluated during their participation in the faculty mentoring program.

Professional development

Orientation of new faculty members

Determining the needs of the university and the department: The needs of 1the university and the department are determined in terms of the required educational cadres and preferred specializations.

Orientation Programs: Customized orientation programs are designed for 2new, visiting, full-time and part-time members based on their needs and specialties.

Introduction to the University Environment: A comprehensive introduction 3to the university and the Department of Public Administration is provided, including an overview of the department, vision, mission, goals, and available services. Providing support resources: New members are provided with the necessary 4resources and support, including training courses, workshops, and technical assistance.

Academic Orientation: New members are oriented regarding the curricula, 5research areas and teaching methods used in the department.

Administrative Orientation: New members are oriented to administrative 6procedures, responsibilities, university policies and code of conduct.

Ongoing Support: Ongoing support is provided to new, visiting, full-time 7and part-time faculty members through advisory sessions, workshops and periodic evaluations.

Professional development for faculty members

- Identifying needs and setting goals: Faculty needs are identified through surveys . And performance evaluations, and then specific goals to be achieved within the program are identified.
- Development Program Design: Based on the specific needs and objectives, a .⁷ comprehensive development program is designed that includes a set of activities, training courses, workshops, and educational resources.
- ۳- Program Implementation: The development program is implemented in a regular . and organized manner, including organizing workshops, conducting training courses, and providing appropriate educational resources.
- Use effective teaching strategies: Faculty members learn to use and apply modern .⁴ and effective teaching strategies, such as cooperative learning, active learning, and educational technology.
- Evaluation of learning outcomes: The effectiveness of the development program is evaluated by evaluating the learning outcomes of faculty members, such as increased levels of knowledge, teaching skills, and interaction with students.
 - Continuous Development: Ongoing feedback and support is provided to faculty . members to promote ongoing professional and academic development.
 - Participation in scientific research and publication: Faculty members are .[∨] encouraged to participate in scientific research and publish the results in prestigious academic journals, which enhances their academic standing and contributes to the development of knowledge in their fields.

12. Acceptance Criteria

- Central acceptance. -1
- Accepting exceptions (martyrs' families, children of faculty, distinguished employees, top -* students in institutes, foreign students).
 - Private government education -*
 - Accepting evening studies. $-\xi$

13. The most important sources of information about the program

- University, college and electronic department website.)
 - Priorities for establishing the department. -Y
- Project to develop and update the curricula of the faculties of management and $-\tau$
 - economics in Iraqi universities for the year 2017.

14. Program Development Plan

- Curriculum development. ->
- Open postgraduate studies (higher diploma equivalent to a master's degree). ^Y
- Developing teaching and administrative staff through courses, seminars and workshops in -^r areas of specialization.
- Supporting scientific research efforts by encouraging faculty members to publish, especially in -٤ international journals.
 - Conducting training programs to develop students' capabilities in technical and information -• technology fields.
 - Organizing field visits and scientific trips for students to government institutions. -7
